**President's Note:**

You may find your team plays a couple of weeks in a row at home (or away). This was done to keep each of the participating bars as full as possible. If your team has 4 home games in the first half of the season, then you will have 5 home games in the second half. In the full regular season schedule you have an equal number of home and away games, just not playing a home game every second week.
